PROFESSIONAL SUMMARY

Data Analyst with hands-on experience using Python, SQL, Power BI, and Excel to drive actionable business insights. Experienced in sales performance and customer churn analysis through interactive dashboards and KPI reporting.

TECHNICAL SKILLS

Programming & Databases	: Python, SQL (MySQL)
Libraries & Data Visualization	: Pandas, Matplotlib, Seaborn
BI & Visualization	: Power BI, Excel (Pivot Tables, VLOOKUP, KPI dashboards)
Tools & Platforms	: Jupyter Notebook, GitHub, Visual Studio Code, PyCharm

EXPERIENCE

Data Analytics Intern   Jun 2025 – Jan 2026
PYSpiders, Bengaluru, Karnataka

- Completed a structured, hands-on internship in data analytics, working on end-to-end, real-world datasets.
- Performed data cleaning, transformation, and exploratory analysis using Python (Pandas) and SQL.
- Built interactive Power BI dashboards to analyze sales performance, customer churn, and key business metrics.
- Applied data visualization best practices to present insights clearly to non-technical stakeholders.
- Collaborated with mentors to validate analysis outcomes and improve dashboard usability.

PROJECTS

Chocolate Sales Dashboard   ⚙ GitHub
Tools: Power BI, Excel

- Designed an interactive Power BI dashboard analyzing monthly revenue trends, ₹21.53M total sales, and 2M units sold using dynamic date slicers.
- Created visual breakdowns of sales by country, product, and salesperson using line, donut, and bar charts plus tables to highlight top performers.
- Identified high-value products and top-performing regions contributing to the majority of revenue, enabling data-driven decision-making.

Customer Churn Dashboard   ⚙ GitHub
Tools: Python, Pandas, Matplotlib, Power BI

- Built an interactive telecom churn dashboard to analyze customer behavior and identify high-risk segments.
- Performed exploratory data analysis in Python with Pandas and Matplotlib to uncover relationships between tenure, contracts, services, and churn.
- Visualized churn trends, retention KPIs, and customer segments in Power BI to support targeted retention strategies.
- Automated data preprocessing and feature insights using Python, improving analysis efficiency and clarity.

EDUCATION

Anna University – C. Abdul Hakeem College of Engineering and Technology   Sep 2021 – May 2025
- Bachelor of Engineering in Computer Science – **CGPA: 7.8/10**
- **Relevant Coursework:** Python Programming, Data Science, Machine Learning, Database Management Systems, Relational Databases, Data Structures & Algorithms

CERTIFICATIONS

- Introduction to Data Science (Cisco Networking Academy)   *2024*
- Machine Learning with Python   *2023*
- Tata Data Visualization   *2024*
- Data Science Foundations (Great Learning)   *2024*

PROFESSIONAL SKILLS

• Data Analysis • SQL Querying • Data Visualization • Data Storytelling • Problem Solving • Communication
