PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on training experience in Python, SQL, Power BI, and Excel. Analyzed 10,000+ records to build interactive sales and churn dashboards, uncovering revenue trends and high-risk customer segments to support data-driven business decisions. Seeking an entry-level Data Analyst role to apply strong analytical and dashboarding skills.

TECHNICAL SKILLS

Programming: Python, SQL (MySQL)
Data Analysis: Pandas, Matplotlib, Seaborn, Exploratory Data Analysis (EDA)
BI & Tools: Power BI (DAX), Excel, Jupyter Notebook
Developer Tools: VS Code, PyCharm, GitHub

TRAINING

Data Analytics Training Program | PYSpiders (A Unit of Test Yantra), Bengaluru

June 2025 – Jan 2026

- Completed a 6-month structured training program in SQL, Python, and Power BI
- Performed data cleaning, transformation, and exploratory data analysis on 10,000+ structured records using SQL (JOINs, GROUP BY, subqueries) and Python (Pandas, Matplotlib)
- Developed interactive Power BI dashboards using DAX to analyze sales performance and customer churn metrics, streamlining manual reporting workflows

PROJECTS

Sales Performance Dashboard | GitHub **|** Live Dashboard

Tools: Power BI, Excel, DAX

- Analyzed 10,000+ sales records using Power BI and DAX to track revenue trends (Rs. 21.53M) and 2M+ units sold
- Built interactive dashboards with country, product, and salesperson-level performance insights
- Designed KPIs and identified high-performing regions contributing 40%+ of total revenue

Customer Churn Dashboard | GitHub | Live Dashboard

Tools: Python, Pandas, Matplotlib, Power BI

- Performed churn analysis on 7,000+ telecom customer records using Python (Pandas, Matplotlib) and EDA techniques
- Identified high-risk customer segments through contract and demographic analysis
- Developed Power BI dashboard visualizing churn KPIs and retention-focused insights

Pizza Sales Analysis | SQL (MySQL) | GitHub

Tools: SQL (MySQL), Python

- Analyzed 48,000+ sales records across relational tables using JOINs, CTEs, and window functions
- Calculated key metrics including revenue trends, category contribution, and cumulative revenue growth
- Identified top-performing products and peak order hours to support sales optimization decisions

EDUCATION

B.E. Computer Science – Anna University (C. Abdul Hakeem College of Engineering and Technology)

Sep 2021 – May 2025 | CGPA: 7.8/10

CERTIFICATIONS

- Introduction to Data Science – Cisco Networking Academy
- Data Science Foundations (Great Learning)
- Data Analytics Virtual Job Simulation – [Forage]

PROFESSIONAL SKILLS

Problem Solving | Communication | Attention to Detail | Data Storytelling | Time Management
