Professional Summary

Detail-oriented and results-driven Data Analyst with a solid foundation in Computer Science and hands-on experience in SQL (MySQL), Python (Pandas, Seaborn), Power BI, and Advanced Excel. Proven capability in the complete data lifecycle—including data cleaning, exploratory data analysis (EDA), statistical modeling, and interactive dashboard creation. Skilled in developing KPI scorecards and executive reports to optimize revenue, track customer retention, and streamline data-driven decision-making across Data Analyst, BI Analyst, Product Analyst, and MIS roles.

Technical Skills

- **Core Competencies:** Data Analysis, Exploratory Data Analysis (EDA), Data Cleaning & Wrangling, Business Intelligence (BI), Data Modeling, Statistical Analysis, KPI Tracking, Trend Analysis, Root Cause Analysis
- **Languages & Scripting:** Python (Pandas, NumPy), SQL (MySQL)
- **Data Visualization & BI:** Power BI (DAX, Power Query, Data Modeling, Star Schema, KPI Cards, Interactive Reports), Matplotlib, Seaborn
- **Database & Query Optimization:** Relational Databases (RDBMS), Joins, Subqueries, Common Table Expressions (CTEs), Window Functions, Aggregations, Indexing Basics
- **Spreadsheets (Advanced Excel)::** Pivot Tables, Pivot Charts, XLOOKUP, VLOOKUP, INDEX/MATCH, Conditional Formatting
- **Developer Tools:** Jupyter Notebook, VS Code, PyCharm, Git, GitHub

Training & Practical Experience

Data Analytics Training Program June 2025 – Jan 2026
PYSpiders (A Unit of Test Yantra), Bengaluru

- Completed an intensive 6-month structured training program covering advanced SQL, Python for Data Science, and Power BI.
- Performed data cleaning, transformation, and exploratory data analysis on 10,000+ structured records using SQL (JOINs, GROUP BY, subqueries) and Python (Pandas, Matplotlib).
- Developed interactive Power BI dashboards using custom DAX measures to analyze sales performance and customer churn metrics, streamlining manual reporting workflows.

Projects

Sales Performance Dashboard | *Power BI, Excel, DAX* GitHub | Live Dashboard

- Analyzed 10,000+ sales records using Power BI and DAX to track revenue trends (Rs. 21.53M) and 2M+ units sold.
- Built interactive dashboards delivering country, product, and salesperson-level performance insights.
- Developed KPI cards, dynamic slicers, and comparative visualizations to support executive sales performance reviews.

Customer Churn Dashboard | *Python, Pandas, Matplotlib, Power BI* GitHub | Live Dashboard

- Performed churn analysis on 7,000+ telecom customer records using Python (Pandas, Matplotlib) and EDA techniques.
- Identified high-risk customer segments through detailed contract, tenure, and demographic analysis.
- Built an interactive Power BI dashboard featuring churn KPIs, customer segmentation cohorts, and service usage visualizations.

Pizza Sales Analysis | *SQL (MySQL), Python* GitHub

- Analyzed 48,000+ sales records across relational database tables using multi-table JOINs, CTEs, and window functions.
- Calculated core business metrics including revenue trends, category contribution percentages, and cumulative revenue growth.
- Identified top-performing menu items and peak order hours to provide data-driven recommendations for inventory and sales optimization.

Education

Anna University (C. Abdul Hakeem College of Engineering and Technology) Sep 2021 – May 2025
Bachelor of Engineering (B.E.) in Computer Science **CGPA: 7.8 / 10**

Certifications

- Google Data Analytics Professional Certificate
- Google Data Analytics Capstone: Complete a Case Study
- Data Analytics Virtual Job Simulation

Core Competencies & Soft Skills

Problem Solving | Cross-Functional Communication | Attention to Detail | Data Storytelling | Time Management
